GENERAL SPECIFICATIONS:
- Maximum Pressure: 150 PSI (Higher pressure models available).
- Not Designed for Suction / Vacuum.
- Screen Surface Area 367 Sq. In.
- Dry Weight: 60 lbs.
- Wet Weight: 160 lbs / Volume: 11.1 gal.
- Maximum Temperature: 135°F.
(Consult Factory for higher temperature applications).

MATERIALS:
- Housing: 304 Stainless standard (316 Stainless optional).
- Gasket: EPDM standard (other compounds available).
- Screen Mesh: 316 Stainless (1/4" perforated sheet backup).

SCREEN OPTIONS:
- Multiple screen mesh and perforated sheet sizes available.
(See product catalog for samples).

NOTES:
1- Flush Port is available in larger sizes.(Bottom Flush also available).
2- Dimensions are for informational purposes only and are subject to change.
3- Stainless Steel Internals (Elbow & Riser Pipe) are also available.
4- 42" Overall height is required for filter element removal.

*Miller-Leaman recommends the purchase of the heavy-duty mesh options as alternatives to the finer, more fragile standard screen options (120, 150, and 200 mesh). Be advised, however, that the heavy-duty mesh options have less open area percentage and will require more frequent maintenance in some applications.

Mesh/Micron Conversion Formula

Microns = opening in inches / .00003937
